

# Stencil Vinyl

Product Specifications & Technical Data

V1.07.22

## Product Description

Use Stencil Vinyl to create unique one-time use stencils for fabric surfaces when using fabric ink to create custom apparel, or for when etching designs onto glassware using etching cream. Cut out your custom design using a Silhouette cutting machine and then weed away the image to create your custom stencil. This specialty vinyl works like regular vinyl in that it may be loaded directly into a Silhouette cutting machine and does not require the use of a cutting mat. Recommended use with transfer tape to move cut-out stencil from original material backing onto intended project surface.

## Recommended Use

Optimal for use with Silhouette and other brand cutting machines. Product may be applied onto hard flat and mildly textured surfaces. For indoor/outdoor use.

## Adhesive Specifications

Solvent polyacrylate, semi-permanent bond

## Release Paper Specifications

Silicone coated release liner to provide easy ability to weed cut-out vinyl from product backing.

## Technical Data

---

### Product Thickness:

90 micron / 0.09 mm

---

### Product Dimensions:

9 in x 3 ft (22.9 cm x 91.44 cm), continuous roll format

---

### Product Surface Treatment:

Smooth high-gloss surface texture

---

### Printable:

No

---

### Shelf Life:

2 years (in original packaging at 20°C/68°F and 50% relative humidity)

---

### Application Instructions:

Move weeded stencil from product liner onto project surface using Standard Tack Transfer Tape.

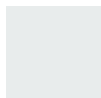

---

### Notes for Use:

Clean project surface thoroughly prior to application. Dust, grease, and other contaminants may negatively impact proper adhesion.

---

## Color Options

Clear
